

The Samples FULL BAND

Minimum Technical Requirements

The Samples will use the house engineer, audio console, signal processing, microphones, cables, and stands. The Sound Engineer must be prepared to mix the Front of House sound, as well as monitors for a national touring act. A separate monitor engineer at stage is strongly recommended.

Audio Console

- 24 channel with minimum of 6 aux busses.
- Processing (reverbs/delays/EQ/compression)
- Midas M32 is our recommended digital console. X32 or similar acceptable

Front of House

Appropriate system for size of room/venue. System must include both subs & tops.

Monitors

- (5) QSC K12 powered wedges (or better).
- (4) separate monitor mixes with the ability to add reverb in the monitor mixes.
-

Mixes

- Mix 1 - Bass - Mix 1
- Mix 2 - Sean Kelly (2 wedges)
- Mix 3 - Keyboards
- Mix 4 - Drums (w/ sub)

Other

- (3) Guitar Stands (Ultimate Stand or Hercules)
- Lighting Package - Call for Consult
